## **The Turning Road, L'Estaque, 1906**

*~André Derain*

Watch out, watch out, this canvas is burning.  
The trees, in flames, leap up and lick the sky.  
The road flows, an electric ooze. Bushes  
and foliage flash their leaves: tangerine/  
cobalt/cayenne. Black has been banished.  
Even the shadows scream for attention.
